Three Rivers Public Health Department COVID-19 Update

Three Rivers Public Health Department (3RPHD), which serves the counties of Dodge, Saunders and Washington counties, is continuing to see cases within the health district. “We are continuing to see cases and we need everyone to understand that this is in every community and we all have a part to play—please wear your mask and stay home if you are sick or if you have been tested for COVID-19. This past week alone we had 162 cases and are averaging a 16.77% weekly positivity rate”. said Terra Uhing, Executive Director at Three Rivers Public Health Department. As a reminder there is testing available through Test Nebraska all over the state of Nebraska. Visit <https://www.testnebraska.com/en> to get scheduled for a COVID-19 test. **There is no cost for this test through Test Nebraska.**

Sadly, we are reporting two new COVID-19 related deaths. A Dodge County man in his 80s and a Dodge County woman in her 80s. This brings our total death count to 20 deaths in Dodge County, 4 deaths in Saunders and 7 deaths in Washington County for a total of 31 deaths in the 3RPHD health district.

As a reminder 3RPHD updates the community risk dials each Wednesday, and the 3RPHD Data Dashboard is updated each weekday. Please visit our website to learn more.

For questions or more information about COVID-19, please call Three Rivers at 402-727-5396, email info@3rphd.org or visit www.threeriverspublichealth.org
